First of all, I would like to thank the Whole Educave Team for bringing this course to Petroleum Engineers, Especially our Trainer who is incredibly talented and knows what the student really needs to know from the course and he communicates in a Friendly and Intelligent way.

The Guest lectures are wonderful and it's like add-on stuff that we signed up for and I really enjoyed the MWD Course - Wellbore Positioning and Drilling Optimization. I understood how crucial the Drilling Services Team are and how they could put value to the Overall Drilling Process.

I am really grateful for this course and would like to recommend it to all who are interested in Drilling Services to enroll with Educave and Increase Productivity through Knowledge.

I took the courses at Educave after i passed out in 2019. It was very helpful and insightful, and it gives students a better idea of how life in the oilfield industry is. It helped me understand the basics of MWD LWD and Directional Drilling in a way that was very crucial to my basic knowledge. The training i recieved helped me prepare for my job interview. I would really like to take this time out to thank the team at educave and also my trainer, who went out of his way to teach freshers like us and prep us for our careers. I would recommend this course for freshers looking for a career in oil and gas industry.

I did my LWD Course with Educave & I am very thankful to team for designing this great course which was very helpful in upgrading my skills of logging and log interpretation. The course discussed in details about different types of logs and logging techniques and how to QC the logs. It was also taught how all these logs in combination can help in getting a clear idea about the reservoir properties.

The teaching method and techniques were very good and had a very practical approach as required by the industry.

My association with Educave not just ended with the end of the course but all through this year I was rightly guided through regular talks and discussion with Team which helped me in keeping up my morale while looking for job and securing a job. No amount of words will be enough to mention my gratitude. Thank you all of you. I wish educave to prosper by leaps and bounds and achieve great success in all their activities.

Detailed Feedback

This course MWD/LWD is structured so well, that it gives me Enough time to understand the topic and also to discuss the doubts. There is no rush by the instructor to just complete the course and get done with it. He waits for everyone to understand the topic and concepts and he would repeat It until everyone understood the topic. The interview session at the end of the course helps me to face the interview with proper manner. After the course Team EduCAVE guide me with every step to get the job I Desired for.

Hello everyone !

I would like to inform you that I got selected in Prabha Energy Pvt LTD as Petroleum Engineer. I have done MWD/LWD training at Educave mentored by Ayaan sir. It helped a lot to clear my interview process. I feel that the course structure is perfectly designed and it helps to bridge the gap between industry and academia. I had gained the actual technical knowledge and skills that are required in the oil and gas industry which made me more confident.

Lastly I would like to thank Team Educave and Special thanks to Ayaan Sir for his support, guidance throughout the journey.

Hi, I would like to share that i hv been selected in Gtc oil and gas company. Personallly speaking being a mechanical engineer it was very tough for me in the beginning to gain knowledge and land in oil industry.. But after some time i got to know about educave through my friends... Then I joined with Educave n started doing LWD... From the very first day everything changed... My worries n tension all at once.... This is the best platform for the freshers as it not only teaches the technical part but also treats you as a family... Khaled sir is the most humble person... And also he is having loads of knowledge plus experience in oil and gas... He doesn't hide anything from his experience... Shares every single thing that too in detail so that it makes you more comfortable and more reliable ownselfsHats off to educave team... If you people were not there then I don't know where would I be.. #respect

First of all, I would like to thank Ayaan sir & team Educave for helping me achieve my dream. Today I have got the wonderful opportunity and the reason behind is Educave. Starting from conducting such a valueable, interactive and job oriented training courses to guiding, helping the students in correct direction is the unique identity of Educave. EduCAVE is a trustworthy, helping minded organization that provides the correct path to trainees in their career. About courses they conduct, it will be unexplainable, True real time interactions, good examples, daily quizzes to check knowledge. I came to EduCAVE having zero knowledge and once I did that, I always assure myself not failing a technical interview with a good Technical skills. I strongly recommend students/trainees to be a part of it.

First of all would like to thanks Ayaan sir and Educave for giving me this opportunity for learning.

During this course I gained a lot of knowledge about wellbore positioning, drilling optimization, surface sensors like hookload sensors, drawwork sensors, stand pipe pressure sensors and pump stroke sensors. At the starting of course I had zero knowledge about measurement while drilling but after attending this course now I had a confidence of clearing any interview related to Mwd technology.

So I recommend this course to all freshers who want to work in oil industry.

Name : Hariprasanth Vijayan

Course Attended : MWD Technology

Company : Petrofac Engineering India Ltd

Designation: HSE Engineer - II

Email id - hari29296@gmail.com

It is an highly knowledgeable field oriented course. It is not helpful only for Petroleum Engineers but also for other mechanical engineers and diploma holders as Mr. Ayaan sir teaches everything from the basics and doesn't even move to the next topic untill everyone understands the current topic. This course helped me a lot to refresh my knowledge about petroleum engineering and as well as helped me gain good knowledge and understanding about Drilling Optimization, Well Bore Positioning, MWD tools, Mud Motors, Survey procedure, Sensors used for surveys, understanding azimuth , inclination ,toolface and how to interpret the data to and do quality checks to to know your well bore position.

Educave team is doing a great job. I am completely satisfied with the course done from Educave. The members involved under this platform give their maximum effort to make students as valuable product for energy sector. Its because of combined effort of team and the knowledge that I gained form the well customized courses of EduCAVE today I am placed in Sinopec Kuwait as Trainee Mudlogger . The Knowledge I got from the courses helped the clear the interview confidently because of which I was placed in Snopec. I thank you all for bringing this platform for us .

Rahul Intuk Kerala

Hello guys...Iam Rahul MR, a student of EduCAVE and Iam happy to inform you all that I got into SINOPEC INTERNATIONAL PETROLEUM SERVICE CORPORATION, KUWAIT as Trainee Mudlogger. I had gone through the MWD/LWD course at EduCAVE in the month of July this year under the supervision of Sir Khalid. This is one of the most rated courses in Petroleum Engineering field and I strongly reccomend all those who are in the this field to go through this training. And with no doubt, I can say EduCAVE is the most suited place for you. The guidance and the kind of knowledge that I have acquired from here made me to get into the position where Iam now. I had no knowledge about this course and also as a fresher I had many doubts about choosing this training. But I can guarantee you that this can be the best choice of your life. The course is well organised and with adequate amount of materials which enables us to get a clear idea about the various processes and instruments used. Also Khalid sir is such an amazing instructor that I was free to ask any doubts regarding the subject. Even now I have contact with sir and he guides me through various job opportunities. This experience was priceless and I thank Sir Khalid and EduCAVE for their help and support

First of all, I am thankful to Ayaan & EduCAVE team. I learned new things through this well designed course, Ayaan sir have good knowledge MWD services. Way of explanation of the trainer was very good , while learning MWD course trainer cleared a lot of doubts related to the MWD services.

I am really thankful to the Team EduCAVE for bringing up these Field Engineer Delivered Courses which would be helpful for all. I recommend all freshers to Join EduCAVE for their well customized courses .

Course attended: Summer Internship on Integration of MWD and BHA Design for vibration optimization in drilling environment.

Company placed: Algo8

Designation: Research Associate

Feedback of the course: The course was very helpful during the time of pandemic. The sessions provided us the practical and industrial knowledge prevailing in the oil and gas sector. Especially our mentor, Mr. Khalid Karajagi was always ready to help and guide us. The training really helped me to gain the understanding of the current technologies in the industry. I am very thankful to the entire team of Educave for such a heartfelt initiative and I hope they will continue their spirit of teaching for a long time.

Ravindra Mit

Name:- Ravindra Mariaiwale
Course attended:- MWD and DD.
Mobile Number:- 8208122941
Email ID:- ravimariaiwale1992@gmail.com
Company placed:- Jindal Drilling
Designation:- Trainee Mud Logger.

Feedback of Course:-

First of all I would like to thank Khalid Sir and Educave team. It has been great learning platform. I attended MWD and DD course in September and October 2020. Really helpful to increase the knowledge of actual Field. There is no rush in this courses and also he waits for everyone to understand the concepts and would repeat it until everyone is on same slide or same page. I thank Educave as I got placed as a Trainee mud logger in Jindal Drilling and it's completely because of Khalid Sir and Educave team efforts. Once again thank Educave Team and Khalid Sir.

Mobile number: 8680081833
Course attended: Cementing Engineering
Company Placed: Royal Dutch Shell
Designation: Subsurface Wells Process Data Engineer

Feedback of Course:

I joined this cementing engineering course as the cementing subject wasn't given much importance in college. I gained insights on all concepts required for a cementing Engineer. Also by choosing educave they helped in preparing for interviews which really helped me in my interview to answer questions related to cementing. Overall it was a very good experience with educave.

Course attended: LWD & MWD
Company Placed: Royal Dutch Shell

Feedback: I am one of the lucky ones that got the chance to attend the LWD & MWD Course from EduCAVE. The training was absolutely superb, as its rare to find the personnel who is experienced and enthusiastic as my mentor for the course Mr. Khalid sir, I genuinely enjoyed every moment and lecture of this course. Their speciality helping us to apply the theoretical knowledge into real life engineering. The content was extremely informative & incredibly useful. I have attended several other trainings but I cant recall any of them having such a strong impact as this course. I got in as one of the guy with normal intellect of Petroleum Engineering and got out with not only strong stubject knowledge, but also how and where to apply those principle. Thank you EduCAVE & Especially Mr. Khalid sir, for this course

Munner ahmed

Thank you Educave and we are thankful that this platform is there... Educave is one of the most transparent n ethical platform not like other platforms who r bringing any courses with any trainers and the quality of education what we are getting is nothing there and they just looting students with 1000inr fees and all and not giving worth of even 100inr, also few platforms I have seen are even selling certificate in name of internship for few money while Educave is completely different from them ... the quality of education and environment in educave is completely different thats the reason we do trust Educave and willing to do the courses cuz v know that you will bring only courses which you feel is of important.

Thanks Educave team for being pure and helpful to students..

Hoping to learn from this platform

*A warm greetings to all, I am happy to inform that I got placed in ONGC (AEE, Reservoir). I had done an online Internship on Cementing Engineering under the mentorship of Zahid sir. I would like to thank sir for providing his undivided time and support to us during the internship and I can't thank him enough for giving us his head, heart and soul to provide us the knowledge as much as he could . It really helped me enhance my basics in this section under the full guidance of the educave team . I enjoyed attending the course and would recommend others to join too.
Lastly I would like to thank Khalid sir for connecting me to this course and also for aspiring us to grow more.*

I attended my first course on MWD with EduCAVE & found it extremely useful. When I was signing up, it was my idea that the theoretical knowledge would be imparted since course is for fresh graduates , on the contrary course was filled with practical on field experiences and examples . This could not have been better for me since the area I am working is completely different . Now after the course I feel confident whenever the subject matter is discussed. Moreover the instructor, Mr. Ayaan was an excellent teacher since he never excused himself from any question & always given very comprehensive answers to the queries even if they were not related to the course . I would highly recommend akk the fresh graduates , professionals , college instructors to attend the courses offered by EduCAVE to enhance their knowledge

EduCAVE is no doubt a very outstanding platform for all the freshers who are willing to be into MWD Services in oil and gas industry as the presentations being projected are delivered by expert individuals who have a vast experience in relative fields. The course structure designed is more relevant and refined as well. The fresher will for sure gain a lot of knowledge regarding MWD stuff and a bit of DD stuff as well. These kind of sessions for sure will increase the confidence and ability of an oil and gas industry aspirant to crack his goal to core. I thank EduCAVE and also suggest to build more sessions of this kind.

All the best EduCAVE and team.

Khusbu Hasan

Thank you Khalid Sir for sharing your knowledge and field experience. The M'W'D Course is really helpful in pacing my career in right direction. It was really detailed and informative in field aspect. Thank you syed Jazbi sir to always being there and providing assistance.

22:02

G Ravi Ram Halli

Hi everyone,

Firstly thank EduCave for conducting such a fantastic session of M'W'D training and thank Khalid sir as well for his wonderful lecture and presentation in view of training the fresher and designing such a refined course of M'W'D in detail.

I mention all the fresher the course we all attended is very well designed, worthy and make sure for yourself confident and add this knowledge to pave a good path for your future career as an M/LW'D Engineer into the oil and gas industry.

Thank you Jazbi for your role.

I wish for all of you freshers get placed in the industry soon. 👍

Thank you all

I expect more such productive and worthy sessions from EduCAVE...

Thanks EduCAVE 🤝

Course attended: M/W/D/L/W/D
Company Placed: EnerMech Oil and Energy
Designation: Coiled Tubing Operator Level 1

*Feedback of Course:
Hi Everyone*

*I attended the M/L/W/D Course from Educave under the Guidance of Khalid Sir. During the M/L/W/D training he trained me not only in M/L/W/D but also helped me in clearing the basics of Upstream as i was from a Mechanical Background, and he also helped me in knowing how to study and grasp the technical part of the topics, which is important for clearing the interview. I completed my training in the month of Oct 2019 and he was constantly in touch with me , and if i have anything , any doubt to ask, he always help me and guided me, also whenever he gets any oppurtunity he ask me to apply, this is what i like about him, he will help u, understand u and guide you and try his best to see u place in Oil Industry. The M/L/W/D training is very technical and he teachi how he approach when he works in Field, so you will learn about the practical approach and you will get the field knowledge. The training session is very knowledgeable and very different, you will enjoy as well as you will learn something which will help you in getting jobs.
Thanks Khalid Sir.*

Something I thought i should share about...
Generally when u pursue some kind of course/training from somewhere, the institution asks you to keep the materials and everything confidential and do not share with those who did not attend it. But i see the things different with **EduCAVE... Path to Success** and the mentors . They share the knowledge , the materials nd all stuffs of their course to students irrespective of whether they did the course or not at their institution. It is very commendable and something tht made me write this post.. they want the knowledge to spread as a light literally amongst students... Really appreciate wht **EduCAVE... Path to Success** is doing..Best wishes...

“Thank you Ayaan sir for conducting MWD/LWD course which was really helpful to me because it was a good revision of MWD/LWD.” It has been a great learning platform. I have done my graduation in Petroleum engineering. It prepares an individual from interview point of view and overall a good learning experience with Educave.

The knowledge we got in the course helped me clear the interview of Focus energy and I am happy to inform that I got a job in Oil & Gas industry as Petroleum Engineer Trainee and I thank EduCAVE for that

Trainee Name: Santosh Prabhu

Attended Course: MWD/LWD

Placed In Company: Focus Energy

Designation: Trainee Petroleum Engineer

Mobile Number : +919176540914

Email id : santoshprabhu16@gmail.com

“Educave is a wonderful place to gain knowledge and guidance for graduates looking for job. The teaching was splendid. It was more of practical knowledge about how the oil & gas industry works rather than just theoretical stuff that we learn in college and never use it again in college. I attended the Mwd/Lwd course which was conducted on June 2019. I have learnt many things about the Mwd/Lwd sector and now I have a clear idea about the work. I would definitely recommend this course for freshers . Got a job in Focus energy which wouldn't have been possible if not for EduCAVE in my career.”

Placed In Company: Cairn India

Designation: Graduate Engineer Trainee

Mobile Number : 9725257121

Email id : rohanpatel24680.rp@gmail.com

Firstly I would like to thank Educave team for bringing up this concept of short courses which help in bridging up the gap between theoretical knowledge and practical field applications. One such course is basic cementation engineering. I did this course under the guidance of Ayaan and Zahid Karajagi. With this practical knowledge it helped me in cracking the interview and I finally got placed in Cairn India company. I did this course in October and I m currently in BE petroleum. I highly recommend this course and thank you to entire Educave team.

EduCave really helped me accelerate my career in the field of Oil and Gas. The course is specially designed for young professionals/students who wants to enhance their knowledge about the O&G industry, the content of the course is very thorough and the trainers are very well versed with their specialization and are highly Ayaans. I was getting all the support which I needed during and even after the completion of the course which keeps me updated with the industry. After the completion of the course, I was able to feel the difference in terms of technical knowledge as every concept was very clearly explained.

I am very thankful to all the members of EduCave team for creating this wonderful platform which is helping the youngsters in shaping their career in the right way. Kudos!

Hello guys, I received mwd/lwd training from educave and Khalidsir and below is my experience.

“Thanks to Educave and team, I was able to attend a very well designed course of LWD/MWD. It was taught by Mr Khalid Karajagi, who I am grateful for all the guidance. The course is taught with patience, in depth and all the quarries are solved. There was also discussion of field operations and interview sessions which led me to understand the roll, responsibilities as an engineer to be and the expectation of Industry from one.”

Sirrom Ozorio goa

Hi guys. This is Sirrom Ozorio. I would like to inform everyone that I got into Almansoori as a Trainee MWD engineer. I had done my course in MWD/LWD at EduCAVE in the month of april this year under the guidance of Sir Khalid. When i joined the course, I had absolutely zero knowledge about MWD and LWD. But the course is structured in such a way, that even if you have no knowledge in MWD/LWD, by the end of the course you will be confident to crack any MWD/LWD interview. The course not only provides theory knowledge but also practical knowledge along with sharing personal field experiences. The course has given me the confidence not only to crack the interview, but also to face challenges at field.

I would like to thank Sir Khalid who has been an amazing mentor to me. Even after the course Sir Khalid has been in contact with me, guiding me through various job seeking processes. I would like to thank Sir Khalid and the entire EduCAVE team for their help and support throughout.

Trainee Name: Siddharth Gopi

Hello!

I recently attended the Directional Drilling course in Educave. I would say, I was lucky to get the opportunity to learn from one of the best experienced DD in oil industry.

Along with all Directional Drilling stuff, interesting thing I learned from him which I never found in any book was "what is the procedure for sliding and how to prepare the sliding sheet and also how torque and drag model is prepared for particular well." This course would really help me to grow in my oilfield career.

I thank Educave for conducting this Directional Drilling course and special thanks to Anant sir who solved all my queries about Drilling.

Training in Educave is important for freshers who wants to pursue the carrier in oil industry as well as for experienced. I joined educave as a fresher and completed the LWD/MWD course which was presented by Khalid sir. He shared all his field experience and the way of teaching was very good which helped me to gain lot of knowledge about Oil industry .This added to my resume on the basis of which I got the job.

Presently as I am having experience in oil industry, I have been enrolled to another course named Directional Drilling which is presented by Anant sir who has more than 13 years of experience in oil industry. He helps understand all Directional Drilling concepts in a very easy and effective way. The Directional Drilling course helps to get ready to work in field in Drilling industry. I am 100% sure this course will really help me to grow in my career. I thank educave for sharing the industry knowledge and happy to be a part of Educave family.

16:35

Abhishek mit 3rd yr

Hello everyone,

Last week I attended a course in lwd academy under the mentorship of khalid sir which organized by educave. It was a very helpful course as it covered the concepts such as resistivity logs, porosity and density logs, gamma ray logs in very detailed manner and clarified all of the doubts regarding the same. Therefore I thank educave and khalid sir for organizing this course.

11:05

Edwin Amet uni

Hey guys

This is Edwin. I attended the august batch of M/LWD course at Educave.

It really helped me a lot. To get more indepth knowledge of how tool works, taking surveys, calibration of the tool, Log interpretations and many more.

I would really thank khalid sir. He had been a great mentor to me. He not only teaches you but motivates you in such a way that you become confident. And feel that you are all ready to step into the industry

14:09

Meet pdpu

Hello everyone!

I attended the last batch of MWD/LWD. It was a great experience. I got a very deep knowledge of field engineer responsibility. I was also guided for how to make CV and how to prepare for an interview. I think I am ready for any field engineer opportunity now.

16:23

Thanks to educave and Mr. Khalid sir

16:23

Muqseed new

Hi, this is Muqseed Khan from Hyderabad, i attended the August batch of Mwd/Lwd it enhanced my technical knowledge like which senior and tools are use for logging, depth tracking and lot more, now i am confident enough to join any oil & gas organization & it wouldn't be possible without the cooperation of Mr. Khalid sir, i would like to thank him for sharing his on field experience with us & thank you educave for providing such courses to get start into oil & gas industry.

17:21

Mahiraj whatsapp

Hello everyone !!

I am Mahiraj Thakor from MIT-Pune. Recently i completed my MWD/LWD course under guidance of Mr Khalid and it was good learning experience for me. The most important thing was i got to learn basic concepts of MWD/LWD so easily. The course was not only about technical knowledge but also i got to learn about responsibilities of an MWD/LWD engineer and tips on cracking interview. I thank EduCave and Mr Khalid for conducting such courses.

08:56

vishal jadhav whatsapp

I also want to add from my side...Its late but sorry 🙏 I too got job into EXPRO in the DST/TCP department... Really sorry that I should have written this earlier... I Heartily thank to Mr. Khalid Sir who helped me alot , the professionals whom he invited for giving us there valuable time and guidance and my coursemates and all people who were involved in motivating me to achieve this...

Thank you.... 🙏 😊

23:12

Rahul Jevaliya sit

*hello everyone ,
my name is Rahul
i attended mwd / lwd course under guidance
of mr khalid it was very helpful course
covering lwd and mwd concepts it really
helped me alot to get indepth knowledge.
thanks to educave and mr khalid .*
